The True Story

Discover Astreea One⁺

Your Journey Begins Here

Imagine gliding effortlessly through the city, a sense of freedom in every ride, the world around you transformed into an inspiring backdrop. This is not just any scooter; this is the Astreea One⁺, where lifestyle meets cutting-edge technology.

A Legacy of Excellence

Born from over 35 years in the heart of Europe's aerospace industry, we've taken our passion for precision and innovation and infused it into something extraordinary. The Astreea One⁺ symbolizes a new era of personal mobility, one that's steeped in the values of trust, safety, and comfort.

Engineered for You

Picture yourself navigating the urban landscape atop a masterpiece that weighs just 40 kg, built with the strength of aerospace-grade aluminum and carbon fiber. The sleek design isn't just for show; it's a testament to years of meticulous research and a deep understanding of what you truly desire from your ride.

More Than Just a Scooter

Every ride on the Astreea One⁺ is a statement.

With over 12 unique patents, including a stunning cableless body and seamlessly integrated components, it transforms the mundane into the extraordinary. Feel the rush of unparalleled handling as you embrace city life.

A Design That Speaks

Every detail of Astreea One⁺ has been thoughtfully crafted, ensuring that it's not just about transportation, but about lifestyle. The design resonates with modernity and sophistication, earning accolades like the Red Dot Design Award—proof that beauty and functionality can coexist.

Join the Movement

Astreea One⁺ is more than a ride; it's an invitation to embrace a lifestyle defined by innovation and elegance. We've engineered accessories that perfectly complement this iconic design, ensuring you stand out no matter where your journey takes you.

Ready for Adventure?

Step into the future with us. The Astreea One⁺ awaits—not just as a means of getting from point A to B, but as your companion in exploration and discovery.

One+

Designed like no other.

A decade of research and testing went into perfecting this beautifully refined shape. Ergonomically crafted for ultimate comfort, based on comprehensive human body studies. Featuring a design and innovation recognized at the prestigious **RedDot** Design Awards in Singapore, awarded to the factory for excellence in scooter manufacturing. Because we believe that, beyond being innovative, safe, powerful, and reliable, a scooter should also be a thing of beauty.

Cables? We don't do cables.

A groundbreaking innovation: the Astreea One⁺ is the first scooter to feature no external cables, elevating both performance and aesthetics to an entirely new level.

- 1 · Aluminium aerospace frame
- 2 · Patented hydraulic block – cables inside
- 3 · Level glass for oil indicator
- 4 · Astreea® throttle and grip
- 5 · Mirror holder for top or bottom installation
- 6 · Astreea® TFT HMI

- 7 · Astreea® E-Marked Headlight
- 8 · Astreea® Embedded Front Blinkers
- 9 · SP-Connect Phone Holder
- 10 · Hidden USB-C phone charger
- 11 · 3 Embedded Control Buttons.

One⁺

Timeless design, just like in the movies. At an impressive 45 km/h (30 mph), it's a thrilling ride straight out of a classic scene.

Through meticulous research, design, and cutting-edge engineering, we've perfected an advanced lighting system. Custom E-Marked LED lights are seamlessly integrated into the chassis, including the main front light, high-intensity signals front and rear, brake light, back light, license plate illumination, and an intelligent auto-matic day/night mode.

The intelligent scooter.

Since 2017, we've been dedicated to pioneering the first truly intelligent electric scooter. After testing beta versions in Monaco, Paris, and Los Angeles, we've gained invaluable insights into what makes a scooter truly smart.

Featuring a custom mobile app (Astreea® Scooter), sharing options, 'Find My Scooter,' keyless access with alarm, GPS, and LTE with eSIM*, this is just the beginning of what's designed with you in mind.

The integrated, weatherproof Astreea® TFT display, seamlessly embedded in the handlebar, offers a sleek interface with 18 language options to suit your needs.

*Explore the full range of smart features, both standard and optional.

One⁺

astreea®

A luxury sports car on two wheels.

Crafted from aerospace-grade aluminum, the Astreea® One⁺ offers exceptional performance and luxury. Featuring bespoke Astreea® suspension on both front and rear, fairings made from automotive-grade ABS+PC with an optional carbon fiber upgrade, precision-engineered performance wheels with regenerative braking and an adjustable seat—Astreea® One⁺ sets a new standard in two-wheeled excellence.
